

The Triangle Aphasia Project started in 2003 by the very people it serves; individuals who have aphasia, their families, friends and healthcare professionals who sought programs that would reduce social isolation and engage them fully in the life they desired.

With commitment to that mission, TAP enjoyed collaborative relationships with area Hospitals, University Programs and other programs across North Carolina and the Country.

TAP's growth has brought us to this point... it is with great pride that we introduce:

TRIANGLE APHASIA
PROJECT, UNLIMITED.

OUR MISSION IS:

“To serve individuals with aphasia, their families and the community through innovative life participation approaches that maximize communicative potential and reduces barriers to social reengagement.”

*Never doubt that
a small group of thoughtful people
could change the world.
Indeed, it's the only thing
that ever has.*

— Margaret Mead

"He needs the type of support he got from the group to stimulate his self-esteem again. I only wish the group met everyday!"

The services we offer include:

Individuals with Aphasia:

Compassionate and Individualized Support to Stay Engaged and Reach Communicative Potential

- Therapy groups across the Triangle
- Intensive weekly programming / Aphasia Day
- Specialized Groups: Toastmasters, Primary Progressive Aphasia, Young Person's Group, etc.
- Individualized (Re)Engagement Plans
- Collaborative associations with Assistive Technology, and Music
- Therapy, Recreational Programming and Support/Advocacy Programs

"TAP has given him purpose, direction, something to aim for."

Families:

Communicative Connections through Training, Support and Access to Resources

- Learning to Speak Aphasia
- Specialized training for Children of Individuals with Aphasia
- Communicative Support Team Training
- Support Groups / TAPnet
